The *AESCO/MADSEN DM Series* of drum mix asphalt plants are designed with the small to medium-sized asphalt contractor

in mind. Affordability, simplicity of erection, user-friendly operation, end product consistency, and production rates that meet or exceed expectations are all features that make this series of asphalt plants a solid investment. Configured with a venturi wet scrubber system or a bag-house all mounted on the same frame as the drum mix dryer, the *DM Series* range in production from 40 TPH (36 mtph) to 200 tph (145 mtph). The five sizes available are 48" (121.9 cm), 58" (147.3 cm), 68" (172.7 cm), 72" (182.9 cm) and 78" (198.1 cm) drum diameters, and are offered with a comprehensive list of options to suit every customer's needs.
